Polosys KOT

Polosys KOT - Restaurant POS software offers very user friendly, rich, stylish look and feel and can be installed on any Android based devices, such as, mobile phone, PDA, Smart Phone or Tablet PC. It does not require any internet connection or monthly/yearly subscriptions, thus making it only one time investment. Our Android based unique POS can be adapted to meet any restaurant business requirements for Fine Dining Restaurants, Food Courts, Take Away, Home Delivery, Fast Food, Confectionery and Cafeterias to improve operation efficiency, better customer service and customer feel good factor with luxury ambiance while reducing labor costs, and decrease investment and operation costs.
